Our story

Why we exist, what our logo means and what we stand for.

Hiring is about people, not paperwork.

Behind every CV is a person with ambitions. Behind every vacancy is a team trying to grow. Too often the process between them is rushed and impersonal, and businesses pay for it with hires that don't last.

We do it differently. We listen first. We match on skills and on fit. We take care of the HR and compliance detail so owners and managers can get back to running their business. We use modern tools, AI included, to work faster and more carefully, and a person always makes the call.

Our name says what we do. **Human**, because people come first. **Rise**, because we help people and teams go further than they thought they could.

Our promise: **Overcoming Limits.**

Why we exist.

PURPOSE · WHY WE EXIST

To help people and teams overcome their limits.

MISSION · WHAT WE DO

We connect great businesses with great people, and give both the HR support, training and guidance they need to grow.

PROMISE · OUR TAGLINE

Overcoming Limits.

Human, because people come first. Rise, because our work is about helping people and teams go further than they thought they could.

The idea in the logo.

1

“Hum” starts soft

Lowercase and approachable, in Human Lavender: the person as they are today, on the line.

2

The star replaces the “a”

Hand-drawn because we are people, imperfect but we fit in. A star because your potential is full and great.

3

After the star, the “n” rises

It lifts off the baseline and turns vivid purple. Meet your potential and you rise.

4

RISE in capitals

Larger and stronger: the outcome we reach together, and a call to act.

5

The I breaks through

Lifted off the baseline and through the top line: the individual rising, a limit overcome.

A+I

Two changed letters spell AI

Forward-thinking: we use AI usefully and safely, in our own way. The human star comes first.

The colour flows like a career.

Purple is new, fun and creative. Blue is trust, experience and stability. Read the logo top to bottom and the colour deepens the way a career grows: fresh and creative at the start, steady and experienced over time.

Human Lavender #8E8AAE · Starting out	Star Purple #7869BC · Potential, energy	Rise Blue #6E86AE · Growing in trust	Deep Rise #456285 · Experience, stability
---	---	--	---

New · fun · creative

Trust · experience · stability

“It grows and flows like we do in our careers.”

Human-led. AI-assisted.

The A and the I in our logo are a promise about technology. We use AI where it makes us faster, fairer and more careful: sorting applications, drafting documents, scheduling, spotting patterns. People make the decisions that affect people.

This keeps us in line with section 71 of POPIA, which limits decisions about a person that are based solely on automated processing.

A person makes the call

A HumanRise consultant reviews every CV, shortlist and HR recommendation. AI supports that work and never replaces it.

We're open about it

When AI plays a part in a process that affects someone, we say so in plain language.

Data stays protected

We only use tools that meet our POPIA obligations, and keep personal information out of tools that don't.

What we stand for.

People first

We treat candidates and clients as people, not transactions, with honesty at every step.

Shows up as: Real conversations before shortlists, plain-language updates and a consultant on every CV.

Fit over filling

The right match beats a fast one. We aim for retention, not just placement count.

Shows up as: Skills and culture-fit matching, psychometric testing, and checking in well beyond day one.

Compliance built in

POPIA-ready processes and ethical data handling are part of how we work from the start.

Shows up as: Consent on every form, lawful and fair disciplinary processes, accredited training where it counts.

Practical & affordable

Advice that works in a real business, at a price a small team can manage.

Shows up as: Clear quotes, SMME-friendly options and no jargon.

Our personality.

We are	We are not	In practice
Warm	Over-familiar	Friendly and kind, without slang or forced jokes.
Professional	Corporate or cold	Expert and precise, in plain words.
Confident	Pushy	A clear recommendation, and respect for the decision.
Clear	Simplistic	Short sentences that still carry the detail people need.
Modern	Trend-chasing	Clean, current design and tools, AI included, used with care.
Supportive	Patronising	We guide and encourage, and treat people as capable adults.

 POSITIONING

For South African businesses and job seekers who want more than a CV shuffle, HumanRise is the people-first HR and recruitment partner that matches on fit, builds compliance in and stays involved long after the placement.

Who we talk to.

BUSINESSES

Owners, directors, managers and HR

SMMEs, startups, corporates, retailers, manufacturers and professional services. They want to save time and money, improve efficiency and hire people who stay, while staying compliant.

TELL THEM

“We find people who raise the room, and we handle the HR detail.”

INDIVIDUALS

Job seekers and working professionals

All ages and career stages. They value quality, speed, trust and a personal connection, and often want guidance, mentoring or coaching.

TELL THEM

“A real consultant reads your CV and matches you to roles that fit.”

LEARNERS

Teams, managers and first-time job seekers

HR practitioners, supervisors, recruiters, entry-level employees and unemployed youth who want practical, recognised skills.

TELL THEM

“Practical training, accredited where it counts.”

One master brand.

Service lines are described in words next to the logo. Never create separate logos for them.

03-07

Visual identity

Logo, colour, typography, graphic elements and photography.

One mark, used with care.

Our logo is a stacked wordmark: “Hum★n” above “RISE”. It is one piece of artwork. Always use the master files, and never rebuild, retype or rearrange it.

Logo versions.

Full colour (primary)

The default, on white and the lightest tints (Mist, Sky, Lavender 100).

White (reversed)

On Deep Rise, Star Purple, Purple 600–700 and calm, dark areas of photos.

Single colour, Deep Rise

One-colour print, embroidery, engraving, stamps and branded pens.

Black

Only when print is limited to black: newspapers, faxed or copied forms.

Star mark

Favicons, avatars, watermarks and small spaces. Never the first introduction.

Never use the full-colour logo on a dark or mid-tone background. Switch to the white logo instead.

Clear space, size and placement.

X is the width of the rising I in RISE. Keep at least **2X** clear on every side (about 10% of the logo’s width). Never less than 24px on screen or 6mm in print.

Human Lavender	White	3.3:1	No	Yes
White	Rise Blue	3.7:1	No	Yes

THE RULES

- Body text needs at least 4.5:1. Large text (24px+, or 19px bold) and icons need 3:1.
- Small purple text on a tinted background uses Purple 500 #5A4E8D.
- Small uppercase labels use Star Purple or Deep Rise, never Rise Blue.
- Never rely on colour alone. Pair it with a word or an icon.

 Recruitment groups	 Talent sourcing person_search	 Psychometrics psychology	 HR & compliance gavel	 Payroll receipt_long
 Training school	 Temp & contract schedule	 Jobs work	 Accredited verified	 Partners handshake

Real people, real work, real light.

Connection: genuine smiles, natural light

Warmth: people meeting as equals

Recruitment: calm, respectful talks

Compliance: detail handled carefully

✓ Look for

- Diverse South African faces, ages and abilities
- Real workplaces: offices, shop floors, factories, training rooms
- Natural light and soft, true colour
- Candid moments, with calm space for a headline

✗ Avoid

- Stock clichés: thumbs-up, pointing at screens, jigsaws
- Cold corporate scenes and heavy, moody filters
- More than one handshake per page
- Visible CVs, ID numbers, payslips or personal data

Text on images, and consent.

Hire people who raise the room.

Recruitment, payroll and HR compliance, handled with care.

Put text on a calm area of the photo, or add a Deep Rise overlay that fades from 85% to 0% across the image. Text on photos is white, with bold headlines. Round photo corners to 18px on screens.

Consent comes first. Only photograph or publish real candidates, clients, learners or staff with their written permission, in line with POPIA. Record the consent with the image, and credit stock photos where the licence asks for it.

Voice & tone

Professional, clean and modern. Always human, warm and supportive.

We sound like a capable friend.

1

Talk to people

Write to one person with “you” and “we”. Say people, team and candidate, not “human capital” or “headcount”.

2

Keep it clear

Short sentences, everyday words, one idea per paragraph. If a 15-year-old wouldn't follow it, rewrite it.

3

Be warm and honest

Show empathy, especially with bad news. Never overpromise. Only publish facts and figures we can prove.

4

Lead to action

Say what happens next and what to do: “Submit your CV”, “Book a seat”, “Request talent”.

No corporate jargon. Short, clear sentences that lead to an action.

Our voice stays the same. Our tone adapts.

Situation	Tone	Sounds like
Business owners & managers	Confident, practical, efficient	"Tell us what you need. We'll send a shortlist of people who fit."
Job seekers	Warm, encouraging, honest	"Send us your CV and a real consultant will read it."
Training delegates	Motivating, hands-on	"Practical skills you can use at work on Monday."
Discipline, investigations, CCMA	Calm, neutral, precise	"Here's what happens next, and what your rights are at each step."
Unsuccessful candidates	Kind, specific, forward-looking	"This role went to another candidate. We'd like to keep your CV for roles that fit."
Social media	Friendly, upbeat, professional	"We're hiring in Cape Town. Here's what makes this role special."

Endorsement: on partner-led material, our logo follows “in partnership with”, at no less than the minimum size.

Co-branding rules and approval.

✓ Do

- Use our master logo files, unaltered
- Give each logo its own clear space
- Full colour on white, white logo on dark colours
- Send artwork for approval before it goes out

✗ Don't

- Merge logos or create a combined mark
- Recolour either logo to match the other
- Shrink ours below minimum size
- Use the star on its own in co-branded work

GETTING APPROVAL

1

Draft with this guide

Use the master files, colours and wording.

2

Send it to us

Email info@humanrise.co.za with the artwork, where it will appear, dates and quantities.

3

Approve and publish

We reply with approval or changes. Allow time before print deadlines.

Compliance and trust lines.

POPIA · FORMS AND ADVERTS

By submitting your information, you agree that HumanRise may process your personal information for recruitment purposes, in line with the Protection of Personal Information Act (POPIA). Read our privacy policy at humanrise.co.za.

AI USE · WHERE RELEVANT

HumanRise uses AI-assisted tools to help manage applications. A HumanRise consultant reviews every application, and no decision is made by automated processing alone.

ACCREDITATION

Show “QCTO accredited” only next to accredited courses (currently My Team Motivator and Workplace Preparation), never next to the HumanRise logo on its own.

The brand kit.

Everything in this guide lives in the brand/ folder of the HumanRise website repository, and at humanrise.co.za/brand/ once published. For vector or print-ready files, email info@humanrise.co.za.

Before anything goes out.

-
- ☐ The logo comes from the master files, unaltered, with 2X clear space and above minimum size.
-
- ☐ Full colour on white or light tints, white on dark colours. No mid-tones, no cream.
-
- ☐ Colours come from the palette, with purple as the spark and plenty of white.
-
- ☐ Text passes contrast: Ink, Deep Rise or Star Purple on white, white on Deep Rise or Star Purple.
-
- ☐ Type is Roboto (Arial in email and editable files), with headings and buttons in sentence case.
-
- ☐ No more than one star, used as an outline, unfilled and not redrawn.
-
- ☐ Photos show real, diverse people in natural light, with consent recorded.
-
- ☐ Copy is short, warm and jargon-free, and ends with one clear action.
-
- ☐ Facts and figures are true and provable. AI is described as assisting people, never deciding.
-
- ☐ Legal lines are in place: POPIA, the registered name where needed, QCTO only on accredited courses.

Open items for version 1.1.

1

Vector logo master

Export SVG and PDF versions of the logo and star from the original design file.

2

Update the master artwork

Remove the light-blue strip under the rising I, and retire the cream exports.

3

Print colour

Match the four core colours to Pantone references with your printer.

4

Profile avatar

Approve the slightly heavier star line, or replace it with an original small-size drawing.

5

Registration number

Add it to the letterhead and legal footers.

6

Social channels

Confirm handles beyond LinkedIn and add them to the guide.

7

Website alignment

Buttons are sentence case (the June 2026 spec said uppercase). Switch small Rise Blue labels to Star Purple or Deep Rise for WCAG AA.

8

AI commitments

Confirm the three commitments match how HumanRise uses AI today, and review them as tools change.
